Year End Project - T-YEAR-600
SelXPress - Back Office
"User documentation"

Promotions Manager: Baldassin Hugo

Table of Contents

I. Summary

A. Context

SelXPress is an online marketplace platform. It offers both a front-office interface, accessible to customers, a back-office interface accessible to sellers and operators, and an API for managing data transit.

The back office of SelXPress is reserved for sellers and operators. It allows them to manage their products, handle inventory, and track comments and reviews. The back office also provides additional features for operators, such as user management, and other administrative tasks related to marketplace management.

B. Teams

Front Developers

Back Developers

- Leroy Maxence
- Lamalle Julien
- Bertrand Ugo
- Debray Thomas

Docker Specialist

- Vacossin David

II. Identification

A. Register

Before the next patches, to become a seller, you need to contact the site operators so that they can create a seller account for you and give you your access details: **Email** and **Password**.

Please wait for the next updates to see the requests to become a seller.

The SelXPress team thanks you for your patience :)

B. Login

To sign in, you should enter the following information: **Email** and **Password** in the login view:
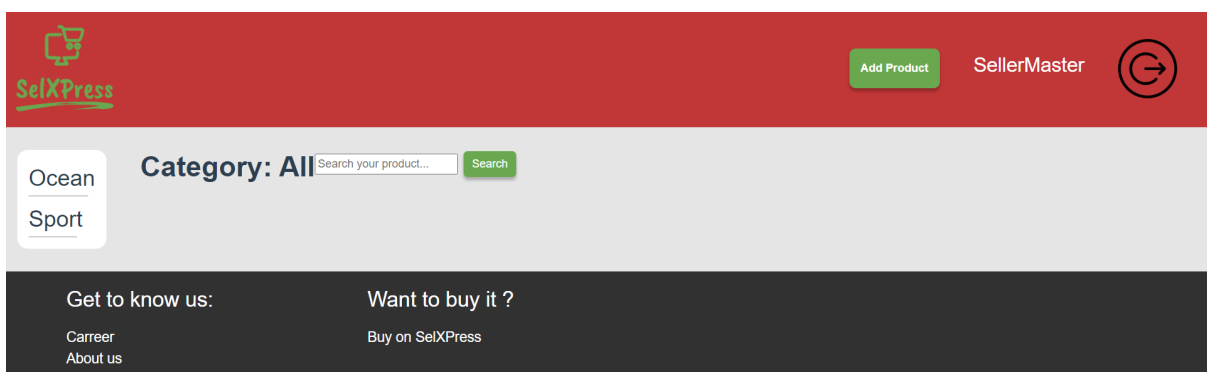

If all the required fields have been filled out correctly and the sign-in process is successful, you will see this message:

Otherwise, you will receive this message:

And the home page will appear in front of you if you don't have any product you will see nothing in your home page:

(If you don't see your username next to the **'Add Product'** button,please reload the page to make it appear.)
C. Forgot Password

If you've forgotten your password, **DO NOT PANIC**!! On the 'Forgot Password' page, simply enter your email address, and you will receive a password reset email via Firebase.

If all the required fields have been filled out correctly an email was sent to the email you entered in the field and you will see this message:

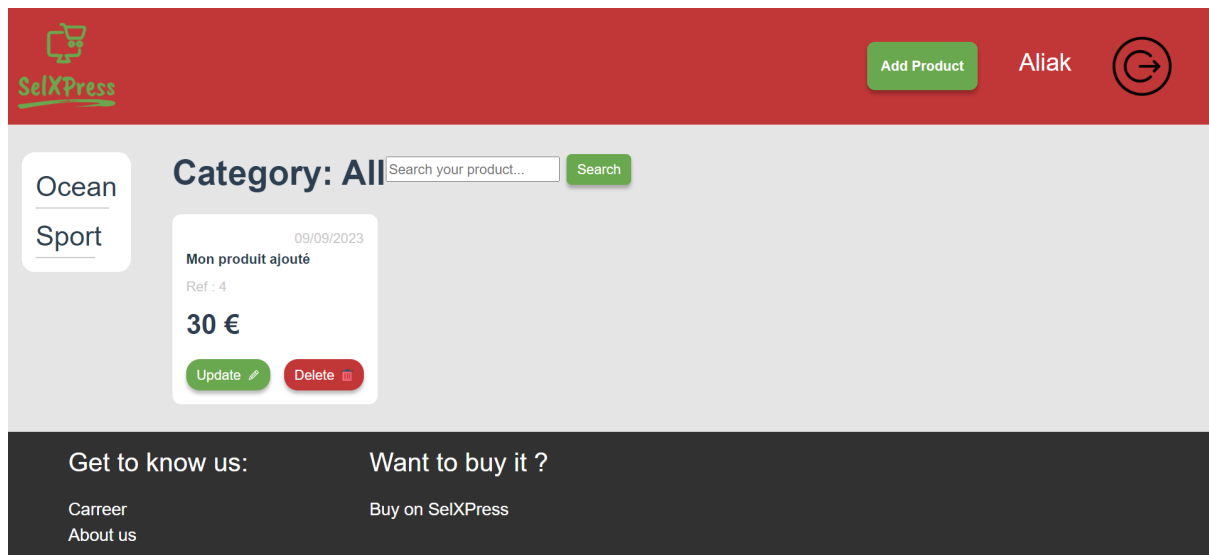

Otherwise, you will receive this message:

III. Home

A. Seller

The home page lets you view all **your products**:

Product cards allow you to retrieve product name, part number, date added, as well as the price at which the product was put on sale. You can update or delete them using the '**Update**' and '**Delete**' buttons.

In future patches, you'll be able to sort your items by category and search by name.

B. Operator

As the **operator**, you have access to all SelXPress products. You must ensure that the products are free of spelling errors and that the images used are not contradictory.
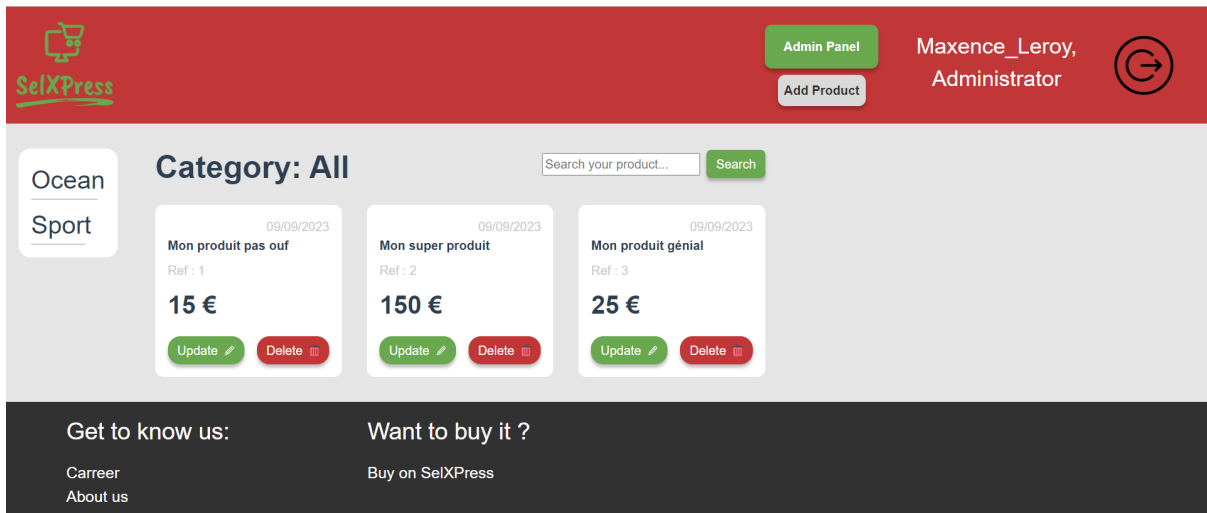

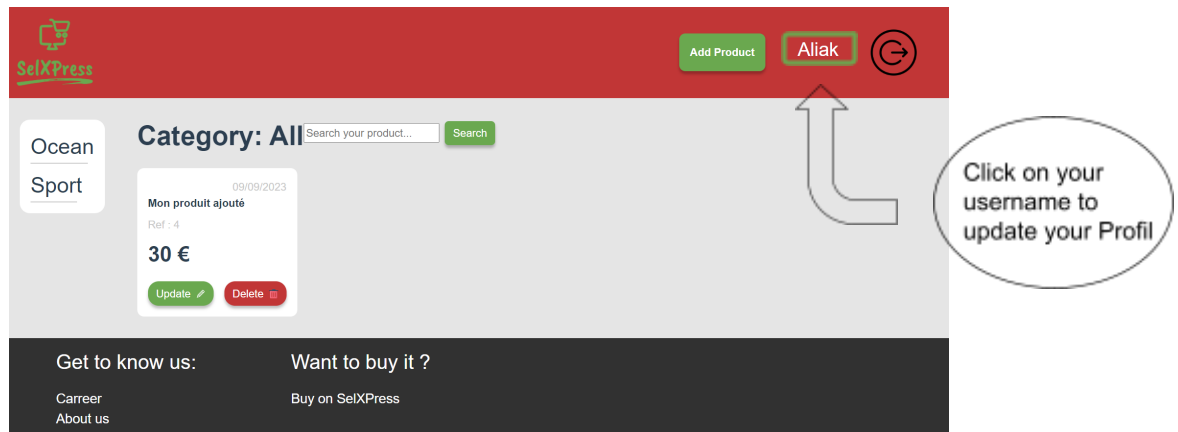

Unlike sellers, in the header you have direct access to the admin panel via the '**Admin Panel**' button.

In future patches, you'll be able to sort your items by category and search by name.
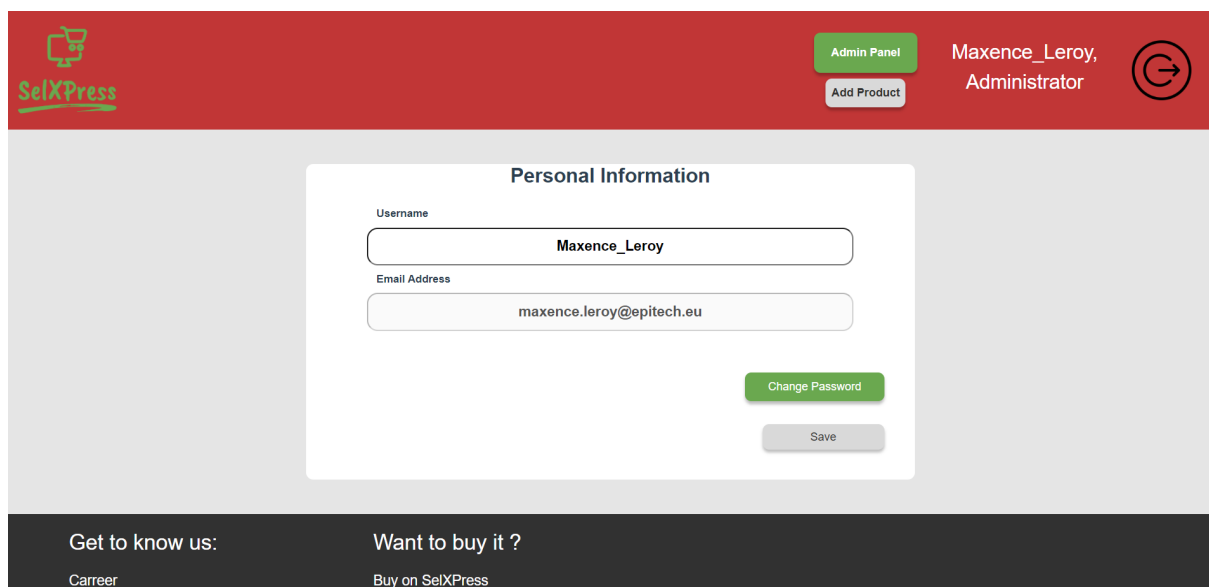

# IV.   User Profil

A. Update my Profil

With the Back Office, you can modify your user profile by clicking on your **username** in the Header.

Through this view, you can modify your username and click on the '**Save**' button to modify it:

If all the required fields have been filled out correctly your profile is updated successfully and you will see this message:
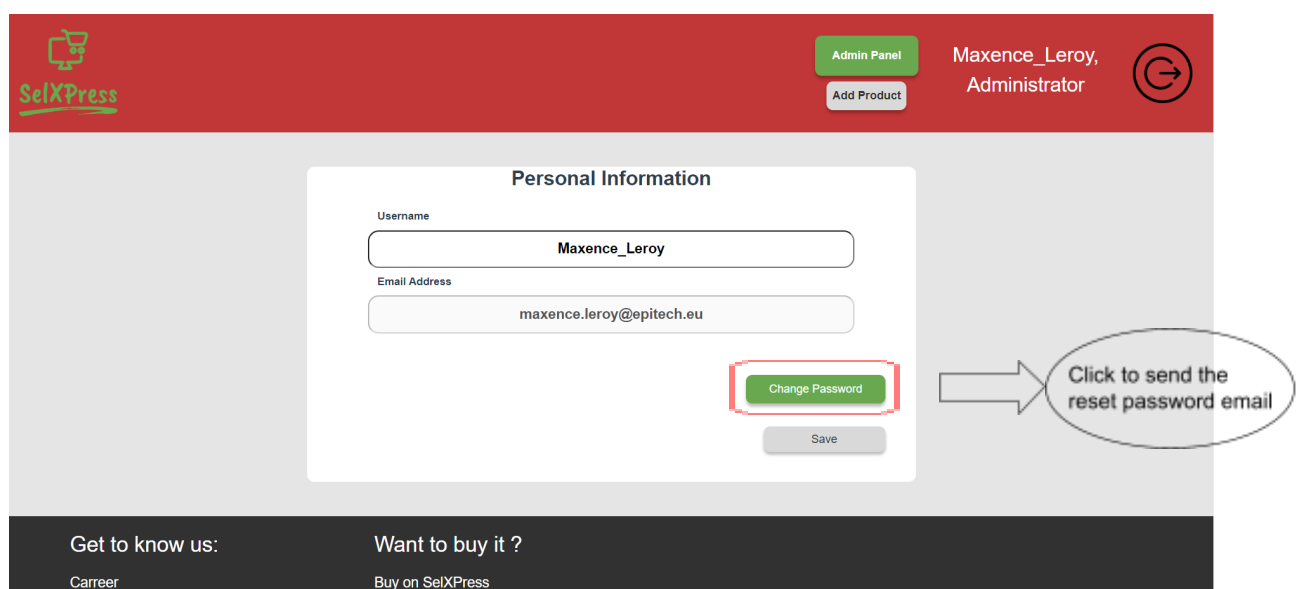

Otherwise, you will receive this message:

B. Change Password

Through this view, you can also change your password by clicking on the '**Change Password**' button:

If everything is ok, an email was sent to the email you entered in the field and you will see this message:

Otherwise, you will receive this message:

V. Product

A. Add a Product

As a **seller** or an **operator**, with SelXPress' Back Office interface, you have the opportunity to create your own product. Click on the '**Add Product**' button to access of the add product view:

On this page, you must fill in all the fields provided so that the product can be validated by the operators.

If you have filled in all the fields correctly, you will receive this message when you click on the '**Add Product**' button:

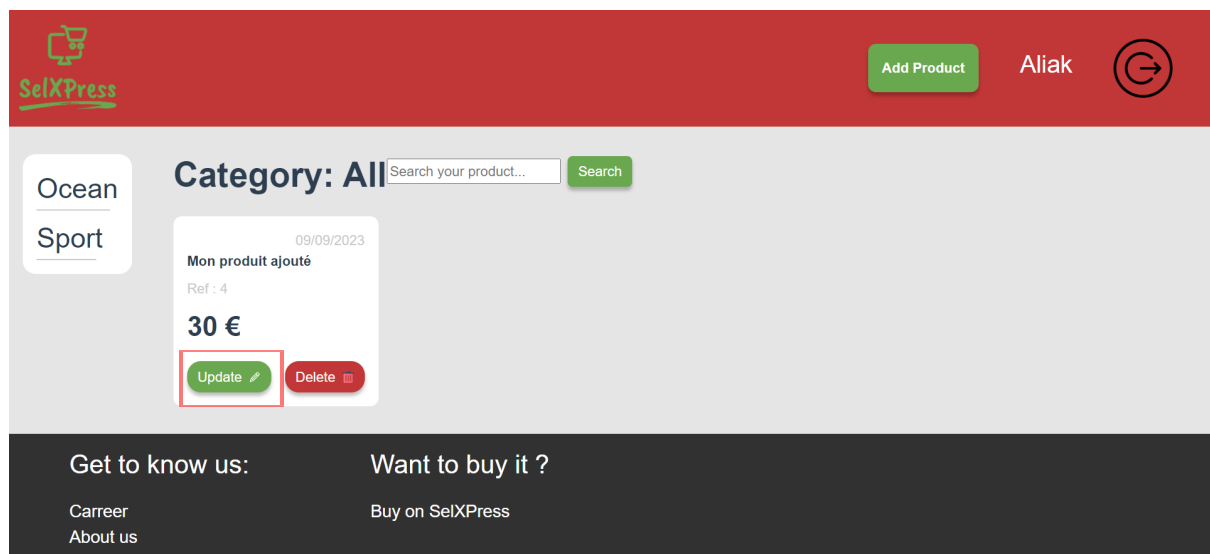

Otherwise, you will receive this message:
B. Update a Product

To modify one of your products, click on the '**Update**' button on the product card in the home page.

You will be redirected to the product page where you can modify the fields provided.
Don't forget to click on the '**Save**' button to **confirm** your product modification !
If all fields have been filled in correctly, you will receive this message with the name of your product modified or not:

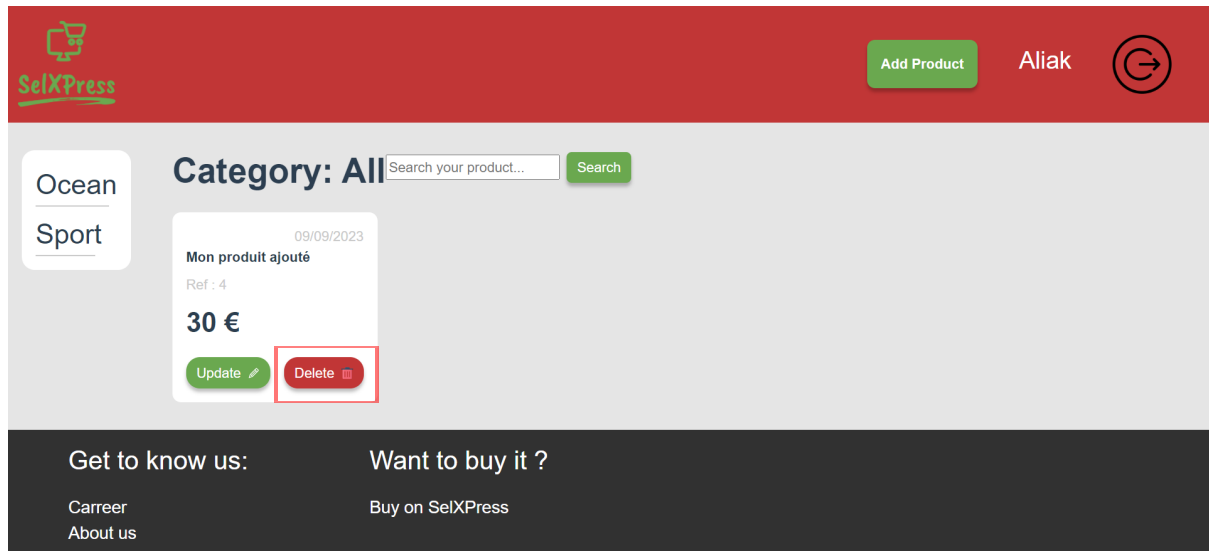

Otherwise, you will receive this message:
C. Delete a Product

To delete one of your products, click on the '**Delete**' button on the product card in the home page.

If the operation was successful, you will receive this message with the name of your product deletion and a short page reload:

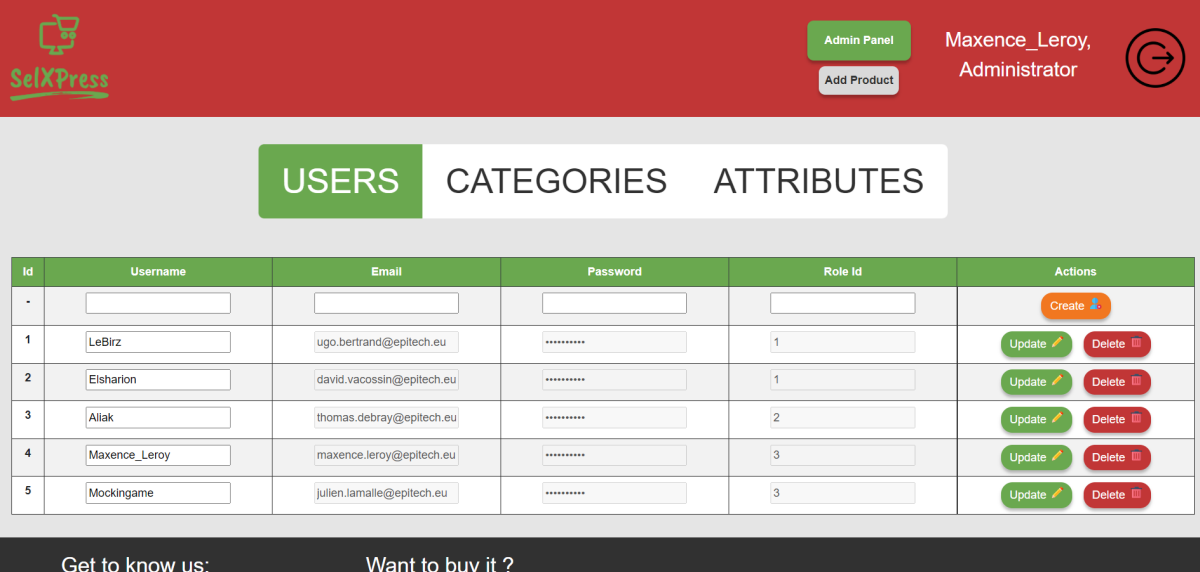

Otherwise, you will receive this message:

VI. Admin Panel

A. User

By clicking on the 'Admin Panel' button as a home page operator, you will be redirected to the Back Office **'User'** admin panel.

With the '**Users**' admin panel you can **create/modify/delete** a user present on the SelXPress site.

To create a user, you need to fill in all the fields on the first line:

The roleId corresponds to the user's role in the SelXPress database:

> 1 = User
>
> 2 = Seller
>
> 3 = Operator

If the process has been successfully completed, you'll see this message and the new user at the bottom of the table:

Created Succesfuly
You created successfuly the SELLERMASTER user
Id	Username	Email	Password	Role Id	Actions
-	SellerMaster	sellermaster@gmail.com	password	2	Create 🔧
1	LeBirz	ugo.bertrand@epitech.eu	············	1	Update ✏️ Delete 🗑️
2	Elsharion	david.vacossin@epitech.eu	············	1	Update ✏️ Delete 🗑️
3	Aliak	thomas.debray@epitech.eu	············	2	Update ✏️ Delete 🗑️
4	Maxence_Leroyeeeeee	maxence.leroy@epitech.eu	············	3	Update ✏️ Delete 🗑️
5	Mockingame	julien.lamalle@epitech.eu	············	3	Update ✏️ Delete 🗑️
7	SellerMaster	sellermaster@gmail.com	············	2	Update ✏️ Delete 🗑️

Otherwise, you will receive this message:

An error occured... Please try again

B. Categories and Tags

If you are an operator and you want to **create, modify or delete** a **Category** or a **Tag**.
Click on the '**CATEGORIES**' tab in the admin panel view to see them:

On the left table you can see all the **Categories** field, you can:
- **create** a category by fill the name field and click on the '**Create**' button and you will see the additional data at the end of the table

If the creation was a success, you will see this message with the name of your category you just created:

Otherwise, you will receive this message:

- **modify** by change the field and click on the '**Update**' button

If the update was a success, you will see this message with the id of the category:

Otherwise, you will receive this message:

- **delete** by clicking on the '**Delete**' button

If the deletion was a success, you will see this message with the id of the category:

Otherwise, you will receive this message:

An error occured... Please try again

On the right you can see all the **Tags** fields, a tag is associated with a **categoryId**, you can do all the same methods of a category with the required button.

C. Attributes

An operator can also **create, modify or delete** an attribute and its associate values by clicking on the third button of the admin panel '**ATTRIBUTES**':

On this view you can create and modify the **Name** and the **Type** of the attribute

When you create an attribute you will see this message following by the attribute name:

Created Succesfuly
You created successfuly the GENDER attribute

Otherwise, you will receive this message:

An error occured... Please try again

18

If you update or delete one of them you will see this message following by the id of the attribute:
Otherwise, you will receive this message:

Beside, by clicking on the right attribute picture on the right of the table you will see under the main table the attribute data table:

As the main table, you can also **create, update** and **delete** these data as the same method just described above.
